Tiffany Taylor

Lip Service

Editor's Note: In our first *BOL Lip Service Q&A*, Playmate and *NSS* favorite Tiffany Taylor talks about her life, her ferrets and her burgeoning Internet presence. We tracked down the sexy criminology major at her home in Maryland for a fun phone chat.

We hear you want to be a cop. How come? So I can speed and carry a gun. No, why do you really want to be a cop? I definitely want to be able to help people. But in terms of a secure future it's a great job. I'll be set for the rest of my life and I won't have to worry about money when I'm 80. That's pretty much what it's all about. *Where does your entrepreneurial spirit come from, and are guys surprised that someone so beautiful is so driven?* Most people are, but I have to pay for my education, so it's out of necessity that everything must succeed and make money. My Web site, www.tiffanytaylor.com, is going very well. My second appearance on Howard Stern's show helped put us into a whole different bracket as far as membership goes. We're going to be adding video clips and a webcam. *What's the scoop on Stern?* Howard is very nice. He doesn't try to make me look stupid or ask me questions that would make me look silly. *Talk about your ferrets.* I have eight. I've had ferrets for almost three years. After seeing them in pet stores, I found some that needed adopting and took them in. *Compare iguanas with ferrets.* Ferrets are much nicer and cleaner. I had fun with iguanas when I had some, but they weren't for me. They get so big that each one needs its own room. *So much for ferrets, what about fetishes?* One time a guy at Glamourcon asked if I had any pictures of myself in a Hawaiian outfit, and I didn't. Then he asked the girl to my left and to my right if he could take pictures of their bare feet. He had a foot fetish. They weren't too keen on the idea, but I have no problem with fetish people. As long as they're not into kids or animals, I don't care. That got me

I have no problem with fetish people. As long as they're not into kids or animals, I don't care.

thinking that I should start a fetish thing on my Web site. So we're going to have a section called Body By Tiffany. It's not going to be really hard-core fetish stuff, but it will have interest for the foot or the tummy person. *What are Tiffany's guilty pleasures?* Eating. Lately I've been eating a lot of chocolate-covered strawberries. *How does your boyfriend handle your posing?* He's very supportive. He realizes I'm doing this to put myself through school and to better myself and to put some money away for the future. It would be different if I were posing for a more graphic magazine. *Does he look at your published nudes?* Yes, but as far as he's told me, that's like a different person. Normally I'm just sitting around with no makeup on in sweats or a T-shirt. That's who he sees, not the big glamorous person everybody thinks of when they see me in the magazine. *What does your family think about your posing?*

Everybody was a little shocked at first, but it was OK

once everybody realized that I wasn't going into porn and that I wasn't going to start making X-rated movies and that I'm doing this to put myself through school. *What do you think about when you're posing nude?* It depends on what kind of mood I'm in. If I'm in a good mood then the pictures tend to be a little bit more playful. If I'm angry then they tend to be that kind of pouty face that always gets printed of me, that face I guess everybody likes. *Do you like that look?* It doesn't really matter. If everything's right in the picture, if everything's perfect, then I don't care what kind of face I'm making. If it looks good, it looks good. *Do you get hit on a lot and how do you handle it?* I don't really go to bars, but it's very weird because people will talk to me every once in a while when I'm at the mall or in a store. When my boyfriend's with me, sometimes he'll sit outside and watch me. Every time he does that somebody always comes up and says, 'Oh, you go to Maryland?' I always have a Maryland shirt on, so that's their line. Then my boyfriend, who is six foot five and a half, comes in and they get the message pretty quick. *What do you sleep in?* I always sleep in underwear—thongs. *Is your sex life pretty active?* Yeah, but not as active as I would like because of all the traveling. But we try. *Is there a sexiest outfit you wear for your boyfriend?* Not really, but I'm sure he would like that. Unfortunately, I spend so much time in lingerie, posing and picking it out. My whole life is spent trying to find outfits, so for any other purpose I just can't deal with it. Unfortunately for him, that's the case. *Do you consider yourself sexy-looking?* No, I would not say that at all. *But you're such a big favorite of NSS readers. Why do you think you click so well with them?* When most people meet me they realize I really am just the girl next door trying to put myself through school. I guess everybody likes that as a change, as opposed to somebody who wants to be a big Hollywood star.

Playmate Lingerie

1976

A Georgia peanut farmer with lust in his heart won the White House (and opened his big mouth in *PLAYBOY*), *Rocky* was the knockout flick, and the whole damn country donned red, white and blue for a giant bicentennial bash. On the Playmate front, Patti McGuire, one of Hef's all-time favorites, was November's sultry Centerfold and 1977's PMOY.
